2 Ton High Reach Front End Loader

T-REX920H

The Revaro T-REX920H is a compact but capable 2 ton front-end loader, designed for operators who need reliable lifting power with the added advantage of extended reach. Fitted with longer loader arms, the T-REX920H gives you improved loading height and better reach into trucks, trailers, feed mixers, stockpiles and general loading areas. With a 2,000 kg rated load, 2 m³ bucket capacity and 4,800 mm maximum dumping height, this machine is built to handle everyday loading, moving and material handling tasks with ease. Its 4WD drive mode, air brakes and sturdy 6,300 kg operating weight make it a practical choice for farms, yards, construction sites and general industrial use.Powered by a 76 kW Yunnei YN38GBZ engine, the T-REX920H delivers dependable performance while remaining easy to operate and manoeuvre. Whether you are loading high-sided trucks, working around the yard or moving bulk material, this loader gives you the reach, stability and strength needed to get the job done.
