T-REX425

The Revaro T-REX425 Mini TLB is a company yet capable machine designed to handle digging, loading and material handling tasks with ease.

Powered by a reliable 25kW engine and featuring a 1-ton rated load capacity.
The T-REX425 delivers the versatility of a backhoe loader in a highly maneuverable package.

With a 0.4m3 front bucket, 2.9m lifting height and 1.85m digging depth, it is ideally suited for construction sites, farms, landscaping projects, property maintenance and municipal applications where space is limited but productivity is essential.
